CLOSE JAPANESE BANK AT OGDEN

Utah Officials Comply With Request Telegraphed by California Officials.

(Special to The Herald-Republican.)
Ogden, Oct. 19.—Acting on authority of a telegram from the state bank examiner of California, Secretary of State Tinney yesterday instructed C. A. Glazier, Utah state bank examiner, to take charge of the Japanese-American bank of Ogden. Mr. Tinney's instructions to Mr. Glazier were as follows:

"C. A. Glazier, State Bank Examiner: The supervisor of the banks of the state of California has wired the governor to have proper officials take possession of the Japanese-American bank of Ogden. Acting under that authority, you are hereby authorized and directed to immediately take possession of said bank until further instructions are received from the bank supervisor of California."

"C. S. TINGEY."
The closing of the bank this morning caused no little uneasiness and excitement among the Japanese depositors, and at one time so large a crowd of Japs gathered at the bank entrance that Deputy Sheriff Hutchins was called to disperse them.

Officers of the bank got permission to place a notice on the door stating that the closing was due to insolvency, but to the condition of the main bank in San Francisco. Mr. Glazier says he has no information that the bank is otherwise than solvent.

SHORT LINE INSPECTION

Officials in Special Train of Private Cars Start Out Over the Road.

(Special to The Herald-Republican.)
Ogden, Oct. 19.—The annual inspection trip over the Oregon Short Line began Monday out of Ogden. Four divisions will be thoroughly inspected inside and out so that the officials can see just how the wheels go around.

Nothing escapes any keen eyes on this annual overhauling of the line. Closets are pried into, the dust under the stove is observed, and whether or not the agent shaves every day is a thing of marked importance when it comes to deciding who will get the rating for the year, each in his own particular sphere of duty.

The party consists of J. M. Davis, general superintendent; William Ashton, chief engineer; E. W. Newcomb, signal engineer, and the other division engineers. The party left Ogden at 10:30 a. m. and will be in Salt Lake City by 11:30 a. m. The train consists of inspection car No. 99, standard Pullman sleeper and three official private cars. The Salt Lake division will be inspected from Oct. 18 to 23; the Utah division from Oct. 25 to 27; the Montana division from Oct. 28 to 29; and the Idaho division from Nov. 1 to 6. The officials mark on the following percentage: Perfect, 25; very good, 35; good, 25; fair, 25; poor, 21 per cent.

The roadmaster's district which makes the best showing on any roadmaster's district is the one in which the agent whose station makes the finest appearance in tidiness, etc., receives a gold medal. The passenger division also receives a silver medal.

FUSION FAILS IN PROVO

Flip of a Coin May Defeat the Prohibition Movement in the Town.

(Special to The Herald-Republican.)
Provo, Oct. 19.—Fusion between the Republicans and the Democrats is off. A flip of a coin last night decided it, and incidentally bids fair to defeat the prohibition movement in Provo. There was a strenuous effort to bring about fusion today and sub-committees were appointed by both parties in an effort to reach an agreement. These failed and finally it was agreed that a coin should be tossed. A portion of the Republican committee had gone to the hotel after the meeting. Mayor Decker, who has been opposed to a withdrawal, consented to the tossing of the coin. J. W. Taylor, chairman of the Democratic committee, was selected to flip the coin. He flipped it high in the air, and Mayor Decker called heads, and thus it came. But this was not the end, for the members who had gone home would not consent and the situation is as it has been before, the Democrats hopelessly at odds with the Republicans, and no fusion is possible for an open city, solidly united.

UNITED STATES COULD STAND IT

France Would Be at Tremendous Disadvantage in War of Tariffs.

Washington, Oct. 19.—Government officials here are not disposed to regard the action of France in deciding to assess the maximum rate of duty against all imports from the United States as an evidence of her intention to enter into a tariff war with this government. On Aug. 7 last, President Taft, in pursuance of the provisions of section 4 of our new tariff act, gave formal notice to France, Switzerland and Bulgaria that our commercial agreements with them would be terminated on Oct. 31 of this year.

France, more than any other country in Europe, has discriminated against American products. Germany gives to the United States her minimum rate on about 95 per cent of her exports into that country. France, however, has charged this country her maximum rates on all exports, with the exception of a very few articles enumerated in section 3 of the Dingley tariff act.

The effect of having to pay the United States maximum rates would undoubtedly be to put France to a tremendous disadvantage as compared with practically all other European nations on handling American goods. America is probably France's best market for her champagne, brandies and other wines.

PHYSICIANS LOSING HOPE

Condition of Patrick H. McCarren Now Said to Be Extremely Precarious.

New York, Oct. 19.—Patrick H. McCarren, state senator and Democratic leader of Brooklyn, who was eliminated from the municipal campaign by a sudden attack of appendicitis, which necessitated an immediate operation, was again in an extremely precarious condition tonight.

He has been reported as dying at various times since the operation Wednesday, but had rallied well until a relapse today, caused by an almost sleepless night and an attack of hiccups, which racked his weakened body and aggravated the condition of a fluttering heart.

He improved little, if any, during the day, and tonight it was evident that his physicians were less sanguine than at any time since he was stricken.

Senator McCarren continued to grow weaker and more progressed. At midnight Dr. Hughes said: "Senator McCarren's condition is very serious, and I can give but little encouragement, but he is making a brave fight."
